Santhiram College of pharmacy was established in the year 2007 with vision To produce competent professionals having sufficient skills, knowledge and attitude which elevate the global standards in Pharma Industry and health care. Institution works hard to make its distinctiveness in teaching and lay down the foundation for the research and always with a motto to provide best quality of education and improving the students skills, creativity and innovations. The acquired knowledge of the students will be practically utilized by conducting the activities under the following distinctive Programmes .

1. Pharma Enrichment Programme:

The main objective of the programme is to raise the status of pharmacy profession and recognize the importance of Pharmacist role and his responsibilities in society. Pharmacists are actively involved in Drug Innovations, formulations manufacture to meet the pharmaceutical needs. Clinical Pharmacist had role in prediction of drug interactions and counseling of the patient in maintenance of the health care.

To meet out and fulfill the needs, we are organizing the following activities under this programme.

Medical Camps: our Institution in association with Santhiram Medical college and General Hospital ,we are conducting Medical camps by our Pharma.D students and Physicians from the

2. FISH Programme:

Institution strives hard for betterment of the student to enrich his subject knowledge from academics and extend learning activities to the students through a unique programme conducting under **FISH (Forum of Innovations with Scientific and Human Values)**.

The programme was inaugurated in the Year 2019 with a motto of improving student abilities, human values and to imbibe the confidence among the students and provide pathway for students to engage in conferences and educational activities, makes the student to adapt new learning skills in addition to usual curricular activities. **The sessions motto is to provide a forum for staff and students to engage in conversations and mutual interactions.** This sort of programme encourages students to gain confidence, enhance communication abilities, and stand on stage without fear. Special Guests from the reputed institutions, experienced faculty of this institution were invited to share their valuable experiences and deliver guest lectures on the current topics to meet the industrial needs and requirements. The programme is designed to conduct on monthly basis. It is to emphasize the key knowledge to the students, learn new skills and techniques with respect to particular activity. This programme assists our final-year students in developing interests for admission into various divisions within the pharmaceutical industry. Following the end of the programme, a discussion session will be held in which each student will come on to the dias and talk on a pertinent issue, giving the student confidence and providing the foundation for his communication abilities.

3. Other distinctiveness of the Institute includes
