2.3.1 - Student centric methods, such as experiential learning, participative learning and problem solving methodologies are used for enhancing learning experiences

In addition to traditional talk and chalk method, SRCP strives for innovative teaching methodologies to enrich the learning capabilities of students by adopting student centric methods like experiential learning, participative learning and problem solving methodologies. The extent of usage of these methods differs from course to course depending on the course curriculum.

However, there has been a paradigm shift from lecture method to modern tools of pedagogy.

1. Experiential learning:

The faculty members foster a learning environment by engaging in rich experiential content of teaching through experimentation, demonstration, periodical industrial visits, and skill development programs as well.

- **Industrial visits:** The institution encourages the students for industrial visits to enhance their knowledge in practical exposure.

- **Science Exhibitions:** Science exhibitions are conducted in the institution and the students from the other colleges and schools are invited. Students are also deputed to exhibit academic activities in other institutions. The student made institutional equipments are displayed in the exhibition and demonstrated by the students thereby encouraging the creative thinking, presentation skills and communication skills of

- **Journal Club:** Students and faculty gather to discuss scientific papers/findings found in a research journal.
- **Guest Lecturer:**

3. Problem-solving methodologies:

Problem-solving is often used to learn to work in teams, and similar "transferable skills" rather than the subject itself. It is also used as a method of assessment (rather than teaching).

- **Internship :** Students during final year/immediately after completion of all courses, they are allowed to perform an year/ I month internship in an approved hospital.
- **Clerkship/Hospital posting:** Every student of Pharm.D program shall be posted in hospital for a period of 5hrs during second, third and fourth year of the programme. In fifth year, every student shall spend half a day in the morning hours attending ward rounds on daily basis as a part of clerkship.

• Project work:

Students during vth year (Pharm.D), final semester(s) (B.Pharmacy and M.Pharmacy) mandatory to undergo project work for 6 months to 1 year to buildup team work and group skills. Project work provides a learning experience in which students have the opportunity to synthesize knowledge from various areas of learning and apply critically and creatively to real-life situations. Every year about 150-160 students actively involve in project work in association with hospital/research laboratories/organizations.
