### *7.1.3(0): Facilities in the institution for the management of the following types of degradable and non-degradable waste*

- Solid waste management
- Liquid waste management
- Biomedical waste management
- E-waste management
- Waste recycling system
- Hazardous chemicals and radioactive waste management

### *Description about Facilities in the institution for the management of the various types of degradable and non-degradable waste*

Santhiram College of Pharmacy is deeply committed to sustainable and environmentally friendly waste management practices. The institution has established robust systems to manage various types of waste generated on campus efficiently and responsibly.

**Solid Waste Management:** The college collaborates with the local Panchayat under an MOU to ensure systematic collection and disposal of solid waste. Waste is segregated at the source into biodegradable and non-biodegradable categories, promoting effective recycling and reducing environmental impact.

**Liquid Waste Management:** Daily liquid waste generated on campus is collected and managed in collaboration with the local Panchayat. This ensures proper disposal and prevents any risk of contamination to the surrounding environment.

**Biomedical Waste Management:** Biomedical waste generated from laboratory and healthcare activities is handled with utmost care. It is segregated, stored, and disposed of following the prescribed safety guidelines, ensuring public health and environmental safety.

**E-Waste Management:** The institution has partnered with Suraj Krishna Greenaries, based in Kadapa, for the eco-friendly recycling and disposal of electronic waste. This partnership helps in reducing the harmful impact of e-waste on the environment.

Approved by AICTE & PCI, New Delhi - Affiliated to JNTUA, Anantapur  
NH - 18, Nandyal, Kurnool District, Andhra Pradesh - 518501.

**Wastewater Recycling System:** A dedicated wastewater recycling system is in place within the group of institutions. This system treats wastewater and recycles it for activities such as gardening and cleaning, contributing to water conservation efforts.

**Hazardous Chemicals and Radioactive Waste Management:** The college follows stringent protocols for handling hazardous chemical waste, ensuring safe storage and disposal without harming the environment or individuals.

These initiatives underscore Santhiram College of Pharmacy's commitment to sustainability and its proactive role in promoting environmental stewardship.
